

Automation suite execution steps:

1. Download the code from git repository:

<https://github.com/sauarabholi/TestAutomation>

2. Unzip the file at some location (eg. C:\Automation)

Pre-Requisite: Meven should be install in your machine

Part 1: Front-End Automation Testing

1. Open command prompt and go to
cd C:\Automation\ CucumberGmail
2. Run command: mvn clean test -Dtest=com.selenium.runner.Runner
3. After successful execution verify the results:
